W/T Operators' Course forty guineas. Full D/F and all facilities on latest type Marconi apparatus. Write to Witney Aerodrome, Oxford.

AIRWORK Limited

USED AIRCRAFT at WINTER PRICES

Paradoxical though it may sound, winter often provides some of the finest flying days of the year—bright clear weather when the horizon is the only limit to visibility, when the air is full of "lift" and free from bumps.

There are advantages, too, in buying aircraft in the winter months for, at Heston, prices are even more attractive than they are during the peak season.

A post-card, a telegram or a 'phone call will bring to you a list of open or closed machines of all types now available with Certificates of Airworthiness at prices from £190 upwards.

If you can spare the time we shall be delighted to show you the whole range and, if you come on one of those bright clear days to give you a demonstration of any that interests you.
